## Sunflowers Enquiry Form

We currently grow two acres of sunflowers each year. The flowers grow about one metre tall and are generally in full bloom in early March for about three weeks depending upon the weather. The flowers are not a florist/cut flower variety; we grow the flowers to harvest the seed at the end of the season to feed to our animals on the farm. Due to a high number of enquiries about photo opportunities in the sunflowers we are opening the paddock to the general public to come and have photos taken amongst the flowers. Please read the terms and conditions below and complete the enquiry form in order to reserve a time and date. Please note this is only an enquiry form only. Due to the nature of farming and weather we will not be confirming bookings until the sunflowers are about to bloom.
